

**9/27/24 OPEN MEMO TO VIRGINIA GOVERNOR YOUNGKIN**

**RE:** Article V, Section 7, Virginia Constitution: "The Governor shall take care that the laws be faithfully executed" & government officials' Duty to Prevent or Rectify Wrongful Acts (Virginia Supreme Court 1.13)

**Virginia Grand Juries manipulated to violate Rule of Law**

Sir thank you for your covenant to faithful service,

I am writing regarding the enclosed 9/19/24 OPEN MEMO to the Virginia Legislature, which has been ignored. This silence signals complicity and points to collusion between the legislative and judicial branches, enabling ongoing violations.

On 5/22/24, you signed a joint letter to President Biden opposing federal constitutional overreach, defending our inalienable rights to Life, Liberty, Happiness. I now urge you to uphold those principles in Virginia.

You have authority over the State Police, who can investigate the actions of Virginia Beach's unelected Sheriff Holcomb for abusing his power, denying citizens Rule of Law grand jury oversight, and First Amendment free speech at our courthouse. Related docketed Federal 4th Circuit Court of Appeals filings are available online at [CourtOfPublicAwakening.org](http://CourtOfPublicAwakening.org)

***Please advise immediate executive branch remedies to restore free speech, non-government citizen grand jury oversight, and uphold our Constitution(s).***

Blessings & Grace as we bring Justice for All to Nations!
